

Project MEND ("Medical Equipment Network for those with Disabilities") is a 501(c)3 nonprofit with a rich history deeply rooted in San Antonio. Incorporated in 1993, Project MEND has provided professionally refurbished and sanitized medical equipment and other assistive technologies to individuals living with disabilities and life-altering illness in our community for over 28 years.

Project MEND's overall objective is to promote the health and self-sufficiency of people living with disabilities or illness by providing refurbished medical equipment such as walkers, wheelchairs, and shower chairs. There is no more meaningful effect than helping someone overcome obstacles and barriers to better manage their diagnosis/diagnoses, increase physical health and participate in activities with family/friends.

Project MEND serves people. We serve the young and the old; veterans, their spouses, and children; and the homeless. We serve individuals living with life-altering disability and illness who are economically challenged, unemployed, uninsured, or experiencing gaps in their coverage. For more information on how to connect with us, contact us at (210) 223-6363 or visit our website at [www.projectmend.org](http://www.projectmend.org).
